SUMMARY

SEO specialist with 3.5+ years at TestMu AI (formerly LambdaTest), a B2B software testing platform, where I've grown from the fundamentals of technical SEO, keyword research, content and link building into what search is becoming. Additionally I focus on GEO/AEO, making sure the brand is cited when buyers ask ChatGPT, Perplexity and Gemini for answers. My approach is the same across both use Search Console, Ahrefs and Semrush to find where demand is going unmet, then build pages that rank, get cited and convert.

PROFESSIONAL EXPERIENCE

Product Marketing Lead, TestMu AI (formerly LambdaTest) **July 2023 - Present**

- Ran SEO for the LambdaTest to TestMu AI rebrand: redirect maps, sitemap and robots.txt cleanup, Organization schema, and updated brand profiles on Wikidata, G2, LinkedIn and GitHub.
- Audited 449 "cross browser testing" backlinks after the move, found 376 still pointing to old or wrong URLs, and started repointing them to the right pages on the new domain.
- Optimized 150+ blog articles and built 40+ new SEO pages, winning featured snippets (Position 0) for target queries.
- Fixed indexation on templated pages at scale: merged 118 thin Chrome version pages into one hub with 301s, and wrote content and schema for 51 free-tool pages that had launched with no body copy.
- Built a keyword research pipeline across 19 competitor domains, narrowing 1,652 keywords into 14 topic clusters and 40 quick wins.
- Audited product, learning-hub and blog pages in Search Console, Ahrefs and Semrush; fixed cannibalization, wrong canonicals, stray noindex tags and redirect chains.
- Set up AI search tracking in Profound, where TestMu AI ranks 9th of 142 domains for citation share, and planned Quora answers around 139 threads that AI tools already cite.
- Reworked 100+ landing pages around campaign goals to lift conversions, and took LambdaTest to #1 on Product Hunt.
- Handled a $1.3M influencer budget, from finding creators to negotiating deals and producing videos.
- Grew Google My Business and Pinterest to 10K+ monthly views; edit Coding Jag, our weekly developer newsletter.

Sales Trainee, Byju's **July 2022 - Sep 2022**

- Completed classroom and on-the-job training to enhance customer outreach.
- Collaborated with sales to generate warm leads, converting two into revenue within six weeks.
